Thread: [Scammed by treloagori 3842749 for 500 euro](#)

MaltheHensberg - January 27, 2019, 12:04 pm

I was scammed by treloagori for a trading bot that cost 1000 euro, we agreed to do 50/50 amounts.

After the bot blew my account, he blocked me on discord and put me on his ignore list.

I really hope you can help me get this fucker banned.

You should open a dispute in your contracts and link the dispute to this thread. Also, giving us more details of what happened would be great.

Did you use a contract for this transaction? I see one [contract](#) from Jan 14th however it is marked as completed and both of you left good B-ratings for eachother. If this is indeed the correct contract I would recommend changing your rating and/or opening a contract dispute. Also any additional proof showing the terms of the deal would be helpful in reaching a resolution.

A big amount. Contract should have used. Profile should be verified on Hf as well. Thx

Opened a dispute, and changed my b-rating.
