Thread: [private spreading method - target specific btc users](#)

basicleech - January 28, 2019, 9:16 am

as the title suggests. Looking to sell this method to limited people so i can get some initial money for my self and buy the tools for future projects.

would anyone be interested in this type of spreading method? it specifcly targets btc users.

bortnitevids - January 28, 2019, 9:38 am

imagine selling a method to rat BTC users which prob have BTC.

Yeah like why not just use the method?

Goldmouth - January 28, 2019, 10:24 am

This shit is screaming scam.

Agreed, though I didn't want to say anything at first I gota say "yes let me sell my method for BTC that targets BTC users." ? and it's not in the market either

Edge of Nowhere - January 28, 2019, 10:37 am

Sell promise to make BTC from BTC users. You got to pay BTC to get the method.

I see what you did there. This IS the method.

Exactly

masterdoyle - January 28, 2019, 10:50 am

im pretty sure the method where you run off with peoples money has been used before

Alles auf Rot - January 28, 2019, 10:56 am

I think i can imagine what method this is. PMed you OP, let me know if im right.

its a btc stealer..

2mins to code, nothing special

PerfectStorm - January 28, 2019, 3:56 pm

Think you have to post in the marketplace?

Hehe nice one :)

Bluffer - January 28, 2019, 4:04 pm

Forums are a common method used by malicious users of rats.

CyberStrike - January 28, 2019, 4:17 pm

Public forum discussing financial fraud and computer crimes .. winning combination.
