Are these methods saturated?

No. These are private methods. They are absolutely guaranteed to bring results.

For clarification, what is this product going to help me with?

This product includes our private techniques to spread your file to a massive audience and private methods to monetize the bots. We have moved on from this industry, and feel that it would be a waste to let this die.

Setup time?

Setup time should not take very long, however you can always put more work in for better results.

Does the monetization method include...

No ads, surveys, silent mining or any public method. You will not guess it. It is 100% private and has proven it's immense success.

Big vouch for this product.

I received a vouch copy since I purchased the elite version of the other guide. The methods seem unique and effective, I have to test them yet. I will test the product today and tomorrow and post the results.

The Elite method is private to my knowledge, at least the way that I do it. I haven't seen or heard of others doing it.

Just kidding!

This surely is a unique method... I'll post the results in a few days, I got good response until now but too early to say anything!

Will I need any programs to make this work or is it an all in one comes with everything I need? Also how so does ROI come back? Interested in Elite Package.

Do you mind if I have a vouch copy? I purchased a \$100 eBook from another seller about spreading and it wasn't worth that. I don't have enough money to buy this eBook but I can sure leave a vouch.

Hi vouch possible sir? ;)

MunchyManofLife - February 19, 2019, 3:17 pm

Hello, I am not able to pm you for some reason so I was wondering if you are able to pm to me? I was wondering with this when you say 50 free slaves does that mean 50 people already have it and I can get 50 people mining instantly and making big money, if so why don't you just use that yourself?
