Thread: [0 to 100 real fuckin quick \(110k IG profile views in 2 days / 2M impressions\)](#)

swavy - February 1, 2019, 1:03 pm

Screenshots are from 2 diff accounts

I revived a dead account 714k impressions in a week on 1 account

The other one I got 110k profile views and 2M impressions in 2 days (says a week but it's mainly 2 days)

70 hours spent on IG in the last 7 days.

0 to 100

I'm expecting the 110k profile views to be 400-700k within 7 days easily

edit: I've spent \$0 on these accounts.

Looks like it's time to monetize my friend.

big picture big picture

not time yet

well I already make money from them but nothing compared to what they will make
