It is over 10 pages and very detailed guide on how to set up the business. You really do not need any prior knowledge.

It does take work to earn \$\$\$. So think about it this way, the more time you put in the more you can earn from this method. If you're looking for something autopilot and put in barely any work, this guide is NOT for you. OP also included tips on how to turn it into a passive \$\$\$ method too.
