This all escalated because he lied to me about my crew portion. The biggest mistake you can do in life is working with this retard.

<https://gyazo.com/baf2f1723052efb313f043b5c167d6bd> - He is going to message my teacher assistance I got something written by him

Yet, I get banned for a week for sales trashing, and he gets away with harassing members, which is in the [Help Docs](#).

Oh boy....I hope things get better between the two of you.

OP, if you need help with essays and what not, hit me up. I'm the best provider you can find over here. I don't pay "professors" to write my client's essays.

Regardless, I truly hope all of this works out for both of you.

Na man, I don't outsource. You're welcome to come sit with me one day and watch me work, since we don't live that apart from each other, I'll prolly be able to teach you how to write. Given how you're way under qualified than I am in every aspect of life.

And about OP, don't worry, it's known that you threaten people. I'm just right now contacting all the other clients of yours who you've threatened before to come rain down like acid on your ass on this thread with proof. That one specific client of yours, who you threatened to report to the dean, remember his name? Starts with an E, he's gonna love this.

You left fake feedback on my thread and are sales thrashing yet again.

@Bear, you are a fake individual who is two-faced. You act cool and then take subliminal shots. You are a clown.

I only take shots at you when you threaten people. Stop doing that, you will never ever hear a single word from me. I hope you noticed that when I wasn't getting in your way the last few weeks. Wanna know why? Because you were behaving like a gentleman and not stepping on my toes nor threatening anyone.

Remember you told me how zSerity laughs at me, read up clown, he's laughing at you in public. Haha.

Either ways, stop claiming you're not threatening Korbl over Skype. He has verified the Skype to be yours, which matches the Skype I've had and every single of your clients have had for ever since you started selling outsourced papers.

Either ways, not my business here. Hope all goes well for you and OP.

I think the real issue here is the constant threatening of members, even with posting their address.

@OP - you should gather up proof that it's REbillyus skype and forward it to staff.

Yeah a closure usually says "closed" or exiled idk the whole banning and closing stuff is confusing to me still.

But it doesn't seem like a closure to me, maybe a temp ban from staff or vac ban

If we look at that contract he tells the user if he doesnt get dispute resolved in 7 days he will be kicked from the crew for his wrong doings. Now that he is on a one month ban, shouldnt he be kicked from the terror crew. I think flaws should get full leadership of the crew.
