Contract

All CE deals are REQUIRED to be done through Contracts. My deal is Product Dispute, and I didn't know about contract thing I'm new to this forum...

Description

So this user had a thread about legitsense cheat, and I went to their website I saw they sell private builds too, So I messaged him on email and bought private build (as you can see he answers very fast and everyday before I bought).... and the deal was that he have to rewrite my project... but it turned out that he wont respond to my emails after I sent payment (he barely respond).. Today he banned me off discord, I tried contacting him on forum(legitsense), tried contacting other owner (Allesanders) [Pretty sure its ceo just his other discord], they only answer with "I'm not involved in private builds", but my question was to ask his friend to respond to my email... after I realized I won't get anything I started making this scam report, It says deving starts instantly and done in max 1 week.. but I got scammed. I hope you can do something I want my refund, I decided to make this right now I'm sure he will never respond me :(

I JUST WANT MY MONEY BACK, I don't trust him anymore (He might rat me or something with his product now). I hope he can refund me, If not I hope he gets banned, this forum is not made for scammers

Proof

<http://prntscr.com/mg06tk> (Asked him to rewrite my cheat, he said 100€)

<http://prntscr.com/mg077o> (sent money, he started ignoring for some time after I sent, he also bought with my money Paid sticky on this forum for legitsense on same day)

<http://prntscr.com/mg07pv> <http://prntscr.com/mg08ba> (ignoring me, not giving me eta. Someone said on legitsense discord cheat dont work for faceit clientside and I said him better anything than nothing, and as soon as Allesanders (CEO) saw that he banned me off their discord and blocked me)

<http://prntscr.com/mg0bc1> (He didn't answer after first message had to send another one)

<http://prntscr.com/mg0bkl> (I did and he ignored me he cannot ask his friend "ceo" to help me, because its him)

<http://prntscr.com/mg0c09> (He saw my last message didnt answer, great support!)

next time use a contract, i reccomend reading through the forum rules and guidelines to avoid making another mistake like this.

Sadly this is invalid without a contract. Next time be sure to use it, especially if you're a new member.

It says contract is only required for CE

All deal disputes MUST be associated with a contract.

If any threads are created without a Contract it will be junked and the member warned.

Everyone will eventually be forced to use Contracts system to use the HF Marketplace. Adapt or else. I refuse to allow these constant stupid deals done and then complaints when deals go bad and a very good system is not used.

And a reminder. All CE deals are REQUIRED to be done through Contracts.

Ok what would have happened If I used contract? I would have got money back?

All deals are at your own risk, hence no one can give you the money back.

What is more sad is that because you didn't read the rules and haven't used a contract with him, he now may scam another member..
