Thread: [Scammed \\$25 by CrudeCoder UID: 3590764 | Fake Coding Service | Multiple Open Disputes](#)

Guede - February 3, 2019, 7:27 pm

Contract: <https://hackforums.net/contracts.php?action=view&cid=24122>

So, I sent the user \$25 to fix some functionality on my shopify store for me:
<https://gyazo.com/d1756fcef3c0d29997484f2e634191f2>

Added him on Skype, then added him on Discord:

<https://gyazo.com/32c7a960062d825d69dd123645138a14>

User, claimed he knew how to fix the issue & had Shopify & Mailchimp knowledge in the PMs:

User called me on discord, I explained the issue. He agreed to fix it, then after I sent the money to him. He said he was going to the store to spend it, and he also told me he was broke first red flag:

Anyway, after calling him after he returned from the "store", I tried to explain him the issue and it was clear to me he had 0 programming knowledge or even a brain. He's a sociopathic liar. After he made himself look stupid in front of me, "he said he had to go because his family was making too much noise", Lol.

So, I decided to confront this pathetic worm to get my money back and surprise surprise he tried to Weasel himself out of it: <https://gyazo.com/bb1bac8f7ec722fbb05703db8e8ccb19>

<https://gyazo.com/492f1bcef682a47318584dcb56d4fed0>

As you can see, I gave him until the first to refund me. The idiot is so entitled he even filed a dispute on me, LOL...

He also has two open scam reports on him (Yes, I forgot to do a trust scan on him.):
<https://hackforums.net/showthread.php?tid=5803084> &
<https://hackforums.net/showthread.php?tid=5798243>

Guy's the worst loser, worm, manipulator, the most peanut brained sociopath I've seen.

Proof another developer fixed the problem within under an hour & the deal went smoothly:

At least now, I'm hoping 3 valid disputes will be enough to get this worm permanently banned off Hackforums.
