Thread: [Make Money Off Of Other Peoples Youtube Videos](#)

Grinder87 - February 4, 2019, 3:14 am

YOUTUBE ARBITRAGE.

This may be something you are not familiar with but what this basically is...is you making money off of someones else video and placing a service or product on someone else's video.

Youtube gets around 5 billion views a day...A DAY. Imagine getting access to just a percentage of that.

I am currently using software that I bought that allows me to place my links on other people's video.

This is ALL LEGIT.

The software connects you with the best niches and the top YouTubers and from there you can monetize off of the video that they made.

This is very much a copy and pastes gig that can bring you a few hundreds a day.

Which isn't too bad for just copy and pasting and doing absolutely nothing in regards to creating content.

They did the job already and all you need to do is a bit of research and then place your link on whatever video you think will give you traffic.

Ask me how, if you are curious

I'm interested in hearing more. How does it override whatever advert was originally there? And if you've got access to it, how are not multiple people hitting the same page each time? Just curious as to how it all works.

Youtube will shut you down and hold all your funds back within a few weeks. I have tried this and did it a while back, all to failure. Beware of when you do this.

The software connects you with the best niches and the top YouTubers and from there you can monetize off of the video that they made.

This is very much a copy and pastes gig that can bring you a few hundreds a day.

Which isn't too bad for just copy and pasting and doing absolutely nothing in regards to creating content.

They did the job already and all you need to do is a bit of research and then place your link on whatever video you think will give you traffic.

Ask me how, if you are curious

Youtube gets around 5 billion views a day...A DAY. Imagine getting access to just a percentage of that.
