Thread: [The Game Beta](#)

Omniscient - February 4, 2019, 10:32 pm

Coming very very very soon!

So that's what we've been working on over at Knotbb.com (beta and development site). It should be on HF this week.

This is a rough road map to what we're doing.

1. Profiles (with attributes and skills)
2. Small Hacks (for building up profile)
3. CloudDrive (to store software bought from shop, this also has download times and space available)
4. Shop (to buy items to do PC and Server Hacks, shop has both Software and Hardware)
5. Battery/Power (so that items from shop are charged)
6. OpSec (Setup for PVP Protections)
7. Contract Jobs (requires shop items and skills, some contract jobs will be against players or crews, also a place to level up and earn by being hired)
8. PC Hack (PVP Actions and hacking)
9. Server Hacks (Crew actions and hacking)

When we add the beta to HF #1,2,3 will be done and functional. As we complete areas they will be updated to HF. Be aware that this game is going to take months to develop but I expect 3-5 weeks we'll be at #7 or #8 and everyone will be enjoying our game.

All these pages are going to be built up over time with more and more options added as we go. Be aware that the page may appear small on a desktop. This is intentional because ultimately we want the game to be played on your mobile device. The hope is that you'll be playing the HF game all the time even if you're not posting on HF or reading threads. So it's vital to be mobile friendly.

You'll notice that #9 is the first mention of Crews. That's going to be very complex and require that individual members first have inventory and skills. Players will first do Small Hacks to build up one of 3 main attributes (Coding, Social Engineering, and System Administration). I can't think of one hacker skill that doesn't require at least one if not all three of those baseline skills. Players will have to buy both hardware and software from the Shop in order to continue to advance in the game and gain experience points. There will be a Power/Battery control center which you'll have to keep charged in order to do actions. OpSec is your security control panel for things like your anti-virus, firewall, and privacy settings.

There is so much more but I don't want to spoil it all. Be aware this is JUST A GAME and that you're not really hacking members or doing anything illegal. It's strictly for fun and entertainment.

This is a simulation game of hacking and we hope everyone enjoys it.

Do you like the preview images. Expect the Beta on the site this week. We are far enough along in development I am comfortable saying that.

Looks pretty neat. What was that one online hacker game that was advertised so heavily here back in the day? Reminds me of that.

Found it: <https://hackforums.net/showthread.php?tid=4444952>

DOG - February 4, 2019, 10:33 pm

Wow this looks like a lot of effort. Exited asf to start playing this <3

Trappy - February 4, 2019, 10:34 pm

This is great, gonna be a fun summer on HF.

Omniscient - February 4, 2019, 10:36 pm

btw, this has been a goal of mine to add to HF for many many years. The help from Xerotic is what's making this possible.

Please someone BIN his XDNA award or at least bid if you wish to support his efforts.

Human - February 4, 2019, 10:37 pm

This looks great, cant wait to play.

630 - February 4, 2019, 10:37 pm

Damn so this is what Xerotic has had in the works. Looks pretty interesting.

Lavish Living - February 4, 2019, 10:41 pm

Very nice.

Wonder where bytes will be put into play... hmmm as I know the currency in the game will be different than bytes.

And lol will it be a bannable offense if someone created a script and ran it 24/7 leveling up?? Gotta be the best of the best ya feel.

Don't forget about the dope punishments that were hyped up - changing usernames & temp banning other crew opponents! :p ie instead of throwing them in jail like hackerforever, they get temp banned for 24/48/72 hours!

ALSO - PM if you want in Motley Crue, recruiting 2-3 more users! ?

I've actually spoke to Xerotic about setting something up ;) not going to be loads and loads but I'll do my best to try help out.

Also OT: I'm actually so excited for this to come into play, legit can't wait.

Meow - February 4, 2019, 10:42 pm

This seems to be the most "in-depth" game so far.

Big props for you & Xerotic for doing this!

Bear - February 4, 2019, 10:44 pm

Looking forward to this game, looks super neat.

Pray - February 4, 2019, 10:46 pm

Looks like it's coming along very nicely, can't wait. Keep up the great work.

pms - February 4, 2019, 10:47 pm

Oh wow this looks exiting, so many great things happening to hackforums lately.

Bluffer - February 4, 2019, 11:04 pm

Looks really good. Going to be fun playing once it's out.

Kill Joy - February 4, 2019, 11:09 pm

Finally I can be addicted to some game again.

iNuke - February 5, 2019, 1:18 am

Sounds awesome, I can not wait until it stars.

Bossk - February 5, 2019, 2:19 am

Looks really dope, this is really gonna level up the hf experience.

01001 - February 5, 2019, 3:02 am

The preview looks good and depicting a great endeavor by Omniscient and Xerotic! Another great addition to the HF. ?

Takehito Morokuzu - February 5, 2019, 3:15 am

This looks fun, I will have a test when I have the time!

Bacardi Cola Lime - February 5, 2019, 4:05 am

Excited to see this game coming to life. If it'll be as good as I think, then joining a Crew becomes number 1 priority.

Interested on how it will affect the bytes' economy as well.

TCP - February 5, 2019, 4:47 am

Looks like a fun game but crews need to be more widespread

Almonds - February 5, 2019, 5:04 am

The game awaits!!

Hard work soon to pay off ?

letsPlayUp - February 5, 2019, 5:19 am

This would be great! Summer would be fun for sure

Vibe - February 5, 2019, 5:21 am

This seems like it could be the greatest thing to come from hackforums can't wait to see how it plays out

Yin Yang - February 5, 2019, 5:22 am

Seems pretty cool!

Are bytes integrated at all?

Damn I really thought I was going to actually hack some HF members. Well regardless look forward to tearing some members up. Assuming you're free to hit as well?

Money- - February 5, 2019, 5:54 am

The UI is really nice. Every member is able participate in the game or is a must to have a crew to play it?

Mix - February 5, 2019, 8:16 am

Great to see movement for the game that has been so hyped up

Every member can play. Being in a crew will just open the game up more.

Banter. - February 5, 2019, 2:45 pm

This is going to be Awesome! ? such a good looking feature already and to think this is only going to be stage 1 out of many ?

Crypt - February 5, 2019, 3:20 pm

This is some exciting stuff. I can't wait to play and it sounds like members can actually learn a bit while playing?

very minimal haha, nothing that will teach you how to be a pro hacker. just some terminology really.

(speaking from the extent of the knowledge I got from playing hackerforever for 2-4hours)

I'm also sure there was another website like the game coming out, I can't remember but I was so addicted to it also.

I personally will be addicted like crazy when this comes out.

I'm so glad you enjoy the reading to the right.

Anyway, I wonder if there is prizes when you level up and all that kind of stuff.

That's unfortunate :/

I believe you can get bytes from the game though?

maybe, or you use bytes to get currency for the game.

no definitive answer yet

webdev77 - February 5, 2019, 3:42 pm

I don't seem to see the dress up as a fire marshall option to perform an elaborate malware implant. Maybe that's a special blackhat mission to unlock later.

there 100% will be cooldowns.

short tho, 45secs-2mins i suspect and then idk what they're doing about the jail stuff that hackerforever had

FOR REAL.

Fuck scratchcards, down 30k+
FUCK slots, down 300k.
Fuck Blackjack, says I'm up 300k... I'm pretty sure I'm DOWN a good amount...

I honestly hope you can earn bytes from this too, still not seen Xerotic confirm or deny..

Also, I thought I was bad when it came to slots, jesus christ.

SIM-3970461 - February 5, 2019, 11:17 pm

So is it similar to HE (hacker experience)?
If so then this will be fun :)
Also will this be limited to upgraded users only or for all?
