It's 50,000 Bytes starting prize with a 500 Bytes ticket cost max of 10 tickets. Someone is going to win a LOT of Bytes in two weeks.

I convinced Omni to host another official lottery because he saw me hosting so many he got jealous.

Good luck chuck! ?

Should just pm the byte sharks and say you'll get them 10 extra tickets. You use their 5k bytes and if you win, you give them 95% of the winnings and keep 5%

Or they could just enter them self.

Just saying.

Someone with 100k bytes can only enter 10 times themselves then give out the 95k for another 190 entries. They'd have a vast majority of the tickets and almost guarantee their win. You're too stupid to understand lol

Yeah cause all the "byte sharks" want to go broke at a chance to win.

They would be broke if they went by that logic.

Fasho.

I'll ask Stratify(Luke) I'm sure he's down tho.

It would mean, if any of us 3 win we split the winnings 3 ways.

We'll have some sort of 3 way contract. Open for more people to join the split as well to maximize our odds of winning something instead of nothing ?
