Thread: [Just cleared some space](#)

Cheese - February 5, 2019, 8:59 pm

Well its that time of the month again, got to clear some space on my SSD

Cleared about 60 GB

Do you guys run out of space often? If so, how often do you clear your drives?

I should also probably get a HDD lol

Cocaine - February 5, 2019, 9:03 pm

I rarely run out of space. I got a Tb internal storage it's plenty.

GiraffeBear - February 5, 2019, 9:59 pm

You should probably get an HDD if you need storage. SSD has lightning fast speeds though.

Ravioli - February 6, 2019, 3:08 am

can i buy your bytes

oh wait

jimmyrock142 - February 6, 2019, 12:51 pm

You should probably get an HDD if you need storage. SSD has lightning fast speeds though.

Context - February 6, 2019, 1:49 pm

Rarely run outta space, got 2 tb lol

Ravioli - February 6, 2019, 2:20 pm

you have a fat ssd :(

i only have a 128gb :(

Cheese - February 6, 2019, 5:51 pm

Okay now this is epic ? ? ?

Great pun

Vibe - February 6, 2019, 5:53 pm

I hardly run out of space lately, I don't really use my laptop like I use to.

Hack - February 6, 2019, 6:07 pm

Got 2TB internal storage, i won't run out of storage any time soon. You really need another HDD.

??????????Michael Kors - February 6, 2019, 6:11 pm

Same here. It's pretty sad.

PerfectStorm - February 6, 2019, 6:15 pm

Nope but I have to

tomlol23 - February 6, 2019, 6:54 pm

yooooo i need to do a big cleaning too.
What did you clear the most out of your HD?

Cheese - February 6, 2019, 6:57 pm

What did you clear the most out of your HD?

I recommend you download <https://windirstat.net/> it allows you to see all your files and see what's taking up a lot of space. Usually TEMP files is where a lot of space goes to, you can delete all files in there.

Of course this is assuming you have a Windows operating system.

tomlol23 - February 6, 2019, 7:00 pm

unfortunately I'm using osx XD
Thanks for the trick tho

Oh well, I guess you could go look for OSX alternatives

Deany - February 6, 2019, 7:08 pm

I keep all my hentai on my external :^)

Ravioli - February 6, 2019, 7:53 pm

Great punthank you

i tried my hardest on that one

Pyro - February 6, 2019, 8:11 pm

i'll just install new OS instead of clearing space

Yumi - February 6, 2019, 8:57 pm

You need way more space! That reminds me that I need to get more space as well lol. Probably 1 tb more. I have a lot of games that I don't play anymore taking up my hard drive space.

Mercury - February 6, 2019, 9:11 pm

I have two shitty little 320gb Western Digital drives so this is an ongoing issue. I bought a chromebook last year and it came with a free subscriber to google drive. So that's where I keep my media now.

SORRIE - February 6, 2019, 9:18 pm

i never clear my drives, i always end up accidentally peeing on my electronics before i run out of storage

accesslogs - February 6, 2019, 10:26 pm

Yeah, I run outta space almost everyday. Planning to get another 4 TBs HDD.

tomlol23 - February 6, 2019, 11:37 pm

I just cleared up to 30gb of space on my HD :3

Joel - February 7, 2019, 2:15 am

Ya boy has 3TB HDD & 2 SSDs. Aint never running out of space.
