This is probably blackhat. even then why a \$5000 a month method. Will be sold for \$7? make it free or \$1 if that's the case because youre already earning so much

I mean if your making \$5,000 a month then you should be fine right? Making an extra buck a day won't do much for you. Also, if you could be a bit more specific about the method. This literally says summarized - make 5k with vpn and computer for \$7.
