Thread: [E-Book Appraisal - Money Retrieval Method](#)

?il??? - February 6, 2019, 11:18 am

I am looking to get an appraisal on my ebook for Money Retrieval. This is a guide on how to get your money back from any exit scam or a bs charge from anyone. I will only send to trusted members for appraisal.

If I am not allowed to sell this method, please let me know as I have no clue.

So basically a guide to win chargebacks? Is it for sending, receiving or both?

Could you explain what you mean by 'This is a guide on how to get your money back from any exit scam or a bs charge from anyone.'?

Do you mean like a Bogus chargeback? When someone has brought your product and then tries to refund, when they don't meet the refund criteria?

The method involves getting your money back guaranteed if you paid for things.
