Thread: [80+ Ebay Accounts \(Use for Watchers / Not Cracked\)](#)

I am giving away 80+ Ebay accounts created through my software. These were not made on a proxy so about 80% of them will be banned. Although this doesn't affect their use as you can still use banned accounts to watch products and it will still affect listing ranking and still show up as valid watchers.

PM me for the list.

The only thing I ask is you don't change the password there is literally no benefits to doing so.
