Thread: [\[CALLING ALL SILVERS\] The Silver Experiment. \[EXPERIMENT, PROBABLY FATAL\]](#)

Intel - February 7, 2019, 12:41 am

I'm like you. I love CS:GO but can't seem to find decent people in solo queue. Does anyone want to squad up and do some scheduled match making? Let's get a team together of a bunch of players who want to improve.

If you're down, please post a reply:

What's your rank/elo?

Why do you want to join this experiment?

Improvement goals (e.g. "I want to be better at AWP").

A random fact about yourself.

It will be a fun time, let's do it. I can't wait to see what we can do.

edit 1: North American timezone preferred.

aside: Everyone's welcome to apply. Not limited to silvers, silly.

Man, it must be rough being silver. When I derank in silver, I can win 99% of the time by using 1% of my brain power and just having fun.

Closing thread. This was a dumb idea in retrospect.
