Real followers. I run a follow for follow app so they are real. They are prohibited to unfollow.

Bro you foreal?? Shit give me the link by pm and tell me what i need to do, been looking all over for real followers etc cause i know most panels only do fake everything even though they claim it's real...

If I like it I'll buy from there regularly cause I'm always skeptical and i never heard of anyone buying real followers so show me what you got.

Alright fo sho, this better not be no fake shit... hopefully...

Ok got my followers but to make sure these are real im gonna give it some time b4 i seriously decide to buy and order more cause im trying not to get jerked here for the million time.

thanks. ;)

Yo to everyone this is a really legit service, he's doing all of these orders of an authentic app that engages with real people stated by him.

My review: Got the followers instantly and it took no time. Everyone that followed looked legit and are real claimed by the seller.

They won't unfollow unless they want to go in the negative so it seems that followers stay forever unless otherwise.

Service Score: 10/10 so far and I advise if you want real followers for cheap, stated by seller, this is the spot for you guys!
