Thread: [\[BTC Only\] Disposable Gmail, Yahoo and Outlook emails - at least 2 days old](#)

Scaletta - February 7, 2019, 11:34 am

I am looking to buy as many Gmail, Yahoo and Outlook email accounts as possible. I don't want to buy your personal or someones hacked email account. These accounts can be new (48 hours old) just make sure that the email account has been verified enough to send emails (Some countries require phone verification).

Payment method: Bitcoins only

Payment amount: Negotiable

Please post on this thread because I am limited to how many PMs i can receive.

Spoiler ([Click to View](#))

If you do not have any accounts but are going to create some soon, verify and age them for 2 days then contact me beforehand so we can talk about some terms

Lol not with these providers. You need a spoofer for effective phishing. I don't think you can spoof these.
