Full Story: <https://hackforums.net/showthread.php?tid=5939204>

My.com's MMO Conqueror's Blade is kicking off stage 1 of its closed beta today, and I've got keys to get you in!

Lean more about the - to be launched game: <https://conquerorsblade.com/homepage> or <https://cb.my.com/en>

Quote:Conqueror's Blade is an immersive MMO that mixes epic medieval action and deep tactical gameplay by placing players in the armored boots of a warlord representing kingdoms of the feudal age. Experience a life of military leadership both on and off the battlefield, with strategic and diplomatic choices to make that will determine the ultimate ruler over the battlefields. Warlords choose a combat class that is inspired by Eastern and Western cultures, fight brutal skirmishes and deploy devastating siege weaponry to take down castle walls. Players form alliances, craft impressive armor and field iconic troops – build massive armies and conquer a resource rich world for the glory of their house.

The event begun earlier this morning and will run all day and all night until February 15th; the code should get you into this entire phase, and obviously the keys expire on the 15th. Click the donate byte button below (and prove you're not a robot) to grab one of these keys!

Register an account and you'll want to redeem your code here: <https://cb.my.com/en/promocode>

Note, My.com says you will need to download the game (which will be linked bellow in your account page) after redeeming the code at cb.my.com/en/promocode
