Thread: [Regarding image length limits for market post](#)

firinne - February 11, 2019, 5:47 am

Hello HF,

I was hoping to find out a couple things:

- 1: for marketplace listings, I see people have images for their thread, and I am designing my own. how big can an image be?
- 2: if I make an image longer then the max, am I allowed to have multi image sales page + vouches etc?

wider net anyway

easier to digest
