Thread: [Blues and Jazz music recommendation](#)

Golden Kappa - February 11, 2019, 8:54 am

I love listening to music while I'm working, I mainly listen to blues and jazz, I have all the old greats on my playlist:

For Blues: B.B. King, Muddy Waters, Stevie Ray Vaughan, Buddy Guy and so on;
For Jazz: Miles Davis, Nat King Cole, Herbie Hancock, Louis Armstrong, John Coltrane, Duke Ellington and so on.

What I want to ask you, is what can you recommend for new age blues and jazz? Is there any good new artists you like to listen?

I prefer actual songs that I can download or listen on Spotify, but thanks anyway, I might listen to this stream sometime in the future.

Larkin Poe another young blues band starting to get famous, their latest album "Venom & Faith" was released just in the end of 2018. They do some old covers like this one below but also a lot of their own songs.
