I've been posting on a few sellers currency exchange threads trying to sell my balance/prime gifts to them and he messaged me saying he'd buy them after my latest post on Savage thread here (<https://hackforums.net/showthread.php?tid=5938886&page=2>)

Deal was I send 3x\$119 and 1x\$39 in exchange for BTC @ %75.

Contract here: <https://hackforums.net/contracts.php?action=view&cid=25836>

I should've waited until he accepted the contract but I didn't realise it until after the fact (this is my first deal on HF & I'm not completely familiar with the contract system) so this unfortunately can only be a warning and not a proper dispute unless I'm mistaken?

HF PM here > <https://imgur.com/a/zMTcNUP>

Discord logs here > <https://imgur.com/a/UOrRbAC>

User has now made 2 sales threads after scamming me, not sure if he's exit scamming or trying to get the BTC to pay me.

Lame excuses on his part. Remember contracts and insist if needed.

Yeah my bad I didn't know that was a thing until after the fact when things were fishy and I read up more about the system.

Lesson learned.

I confirm that this guy is a scammer ! do not do anything with him.

He did the same thing to me 15 days ago ...

he was the one who contacted me on Skype he wanted to exchange 70 USD for LTC, I start with half (luckily for me) because I'm new on HF and I did not know the system well " contracts. "

I retained the lesson but do not exchange with him it's a fucking swindler! ? ?

I see your contract, he's just picking on new users and doing legit deals with people that know how the contract system works so he doesn't get banned.

I'll follow his marketplace activities so hopefully no one else gets stinged. (scrap that, now on his ignore list so I can't follow him, gg)

Sorry to hear ?

Pyro - February 14, 2019, 3:45 pm

I'm on his ignore list too after I posted on few places that he's scammer Sad boy
