Thread: [Any good free scanner that doesn't distribute??](#)

naxster - February 12, 2019, 10:13 am

Hello guys!

Is there any good free no distribution scanner out there?

I've been using Spyralscanner, but for some reason it doesn't work anymore, it always scans 0/0 :/

Hypnotist - February 12, 2019, 10:17 am

Heard this was good <https://antiscan.me/>

I think you have to pay.

Use <https://spyralscanner.net>

The owner is a user here on HF and claims to not distribute.

Spyral does not work at this time, try in 1h. Sometimes they have issues

I use <http://tigatron.pw>, it works perfect, no issues at all

V3xD - February 12, 2019, 3:17 pm

Spyralscanner has never not worked for me, has been working for me all day.
