Thread: [Recruiting Moderators for Big Forum](#)

Prophet Banana - February 13, 2019, 2:37 pm

Hey there HackForums,

I'm the administrator of a Big MyBB Board and I'm looking to recruit a few moderators to help clean the place up. This will be a volunteer position.

The forum is <https://sharree.com>

What is Sharree?

Sharree is a community where content creators (YouTubers, Twitch Streamers, SoundCloud artists, Designers, and Webmasters) can promote their content, get more viewers, and connect with fellow creators. We are nearing 200,000 users and we are the largest forum geared towards small content creators.

Take a look at the site and see if it interests you. If you're interested in moderating Sharree, answer the questions below:

Code Have you administered or moderated an online forum?

How comfortable are you with the MyBB software?

Are you familiar with MyBB Moderation tools?

How active are you on YouTube?

Have you created YouTube videos (optional)?

What is your favorite video genre on YouTube?

Who are some of your favorite YouTube channels?

Why are you interested in moderating Sharree?

Thank you. Hope to hear from some applicants :)

I won't apply, but I gotta say - your avatar/sig combo are one of the best out there

Yes. I'm aware.

Have you administered or moderated an online forum? Yes, I have moderated/administered a couple of rsps/runescape forums.

How comfortable are you with the MyBB software? It has been a while since I've been in touch with Mybb but I used to be very savy with Mybb. I have full confidence I can regain that once I fiddle around with it a little.

Are you familiar with MyBB Moderation tools? Yes

How active are you on YouTube? At the moment I am not very active on Youtube. Recently I have been active on Twitch trying to grow my viewer base on that platform. Here very soon I am going to start uploading clips from my stream onto Youtube.

Have you created YouTube videos (optional)? Yes, I have created many videos during my time on Youtube on different accounts.

What is your favorite video genre on YouTube? My favorite video genre is gaming, the game really doesn't matter if I enjoy the content creator.

Who are some of your favorite YouTube channels? B0aty, Sporting Logically, and Tuxbird to name a few.

Why are you interested in moderating Sharree? I am interested in joining the Sharree team because I love content creation. It's something that I've been doing for years whether its Youtube or Twitch. I have grown a few successful Youtube channels (gaming) and I feel like I could help some of the content creators on the platform grow their channels. I feel as if I could be an asset to the team.

Thanks for the consideration!
