Is this the same complaint method? Or redemption from some other company?

It's a method directly from starbucks , Allows you to receive a Physical Gift card or Credits onto a fresh starbucks account

This method is unlimited and 100% success rate

**Bear** - February 13, 2019, 7:14 pm

How long does it take for the credit/gift card to come into the person's hand? Doesnt matter if physical, just want to know how often it can be done.

Also, is this a method that is already out there or something only you are selling and nobody else knows?

100%, still waiting for a valid download link

This method should work (I don't see why it wont) you need to call starbucks for one part of it... It is pretty simple to do and doesn't require that much effort. There's detailed steps on what to say which you could change up and add your own personal twist if you'd like. It's SEng and I believe that's not allowed on HF? GLWS if anyone has questions feel free to PM me.

I'm pretty sure everyone has done this once in their life but for a different company.

**Money-** - February 13, 2019, 8:13 pm

I received my vouch in a text file. Looks like this method is purely Social Engineering on live chat and phone.

I saw a similar method from here yesterday ( If you want me to link the thread and its free if not mistaken ).

Involves the same live chat features just that no calling involved.

Hopefully this will still work in long term since they will suspect a lot of ppl keep on trying the same thing on them or maybe you can just tweak yourself.

Just buy for extra knowledge if you want since its the same social engineering thing you get just that its in a different situation so you need a particular excuse to execute it.

OP says "No it is 100% legal No Carding just Social Engineering"

Reputable vouchers say " this method is purely Social Engineering on live chat and phone"

Conclusion- OP is a liar and I am leaving neutral rep (neg if I was Uber)

Social Engineering is not allowed here, plus it certainly is illegal.
