Here is my review - the list of sites are comprehensive and full of potential traffic. This pack is worth every penny - the video content is key and totally unsaturated.

Couldnt agree more with you hehe, thanks for the review !

For the record I am not giving any more vouch copies. Dont get confused by my Post Subject, I cannot edit it anymore since I'm not upgraded member (I guess) !

My review:

The sites on the list are many, some already known but still profitable while others are new and to be discovered

The girl's pack is really well done, the previews as well as the videos

I would especially recommend this pack to those who are starting to approach the world of e-whoring

Good luck with the sales broski
