UID : 4108608

CONTRACT : <https://hackforums.net/contracts.php?action=view&cid=25644>

I bought this method some days ago, I read the method and was pretty satisfated, so I left some vouches about it on his thread

Today I decided to really begin the method and I figurred out there are a lot of false advertising

Satoshi stated :

- Method is whitehat
- Copy / past method
- No need to talk with people or negotiate or selling a service
- No saturation risk

I can talk in details about the method (to avoid leaking) BUT :

- Method involve BLACKMAIL business owner
- Method involve to SPEAK with people and Negotiate ,if they refuse your service, you have to blackmail them , Seller clearly advice you to blackmail them (have proof)
- Not really a copy past method ,but a SPAM method
- High chance of Saturation : all buyer have to use the same forum to promote the service and blackmail business owner

Why I opened this dispute ? Seller has disapeard and not responding on Skype, so i'm forced to open this thread

I'm open to resolve this dispute with him

I'm just asking for a refund (95\$) don't want a refund for the setup

I can give all proof to moderators if needed

I can't post proof because I don't want to leak the method and get banned

Did he ask you to leave a positive review? It looks kinda forced

WOW LMAO

So his method WAS A SCAM!!!! LMAO i bought it for \$95 also....

He said i would get banned also and false claimed i did an exact leak ... LMAO

HES A MULTI!!!! I figured it out, he's a high ranking member here it seems. Has to because it makes no sense with someone having a B+ rating that high to make false claims to multiple people..

Ugh, he must of made so much money doing this scam... f*cking horrible.

Guess there are still loopholes in this website cause I know he's a multi

And he changed his name to capital....

mktven - February 14, 2019, 10:50 am

I also cheated for \$ 170 with the same method, I'll open a dispute in the next few minutes

LoveOverFear - February 14, 2019, 11:04 am

It also seems like he put 'Away Reason: Not specified.' on his profile and he created the account on 01-11-2019 with multiple name changes in a month, and a lot of sketchy B+ ratings for who knows what to make him seem legit..

He's a multi..

Yep... f*ck..

F@cked me up too, I would like to get my money back. Paid with paypal but there's no way to get a refund, sent it with family option. I think someone should ban to +vouchers too because they statement was so fake and i bought this things because of the high lvl vouches. ./
