Thread: [Share a Post via PM](#)

Omniscient - February 16, 2019, 10:38 pm

The Share icon now in the postbit has an added option to PM to a member.

You enter a members username and hit SEND and they'll get a PM with a link to the post. Easy way to share posts with members.

Bear - February 16, 2019, 10:45 pm

For some reason, I do not see the share via PM option in the share button. Still only shows url, fb, twitter and reddit :(

I have updated my CSS. For others, here:

<https://hackforums.net/jscripts/thread.js?ver=1801>
<https://hackforums.net/cache/themes/theme12/response.css>
<https://hackforums.net/cache/themes/theme12/showthread.css>

Worked! thnx boss.

Now I can send posts like I send memes on IG to friends

That fixed it, here was I was hunting down the CSS lol. Thank you very much.

PerfectStorm - February 16, 2019, 11:12 pm

Good work. Always nice to see progress like this.

Cocaine - February 16, 2019, 11:18 pm

This is pretty cool I guess. Nice little update!

King - February 16, 2019, 11:48 pm

A cool and useful addition. Just tried it and it worked like a charm.

Steve - February 17, 2019, 12:52 am

Thank you for the update.

Skorp - February 17, 2019, 2:55 am

Pretty neat and useful addition. Thanks for this. ?

iNviZ - February 17, 2019, 4:46 am

That's really cool, great addition. Thanks.

Bacardi Cola Lime - February 17, 2019, 4:48 am

New additions to the forum coming so fast! Great job. This one will come in handy for many of us.

Banter - February 17, 2019, 6:46 am

Awesome little update, imo this is useful a few times i have linked some things so this just makes the process a lot easier

Athr - February 18, 2019, 8:39 am

Nice update.

Gets blocked by my ad blocker though. Will add a filter.

SIM-659024 - February 18, 2019, 9:56 am

Look like an amazing feature. It makes my life a lot easier ?

S2K - February 18, 2019, 10:08 am

Still I can't see it, I did ctrl+f5
