Not sure if it should be in Premium Tools and Programs or Social Networking Services thanks!

Also, can I post it in both sections?

It would get more attention on SNS sub-forum if you ask me. You can post it on either section but not in both of them, if I'm not mistaken.

Correct according to the [Help Docs](#) eh at would be considered cross posting which is against the rules.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

Shortcodes ftw.
