Thread: [How to create a popup macro.](#)

mehtevs - February 17, 2019, 5:17 am

I saw alot of people looking for a popup macro.
ive made a quick video showing how this is done,

please excuse my bad writing in the tutorial,
if you have question just message me or leave them below.

also credits to Darky666 for helping out with testing.

This will require a fud macro in the firstplace.
