Hi OP,

As I'm new here, I don't have an upgraded account.

My life as of now has been going pretty good.

I'm 1+ year sober, I've cleaned up and am now in a healthy relationship with myself and my girlfriend.

I've taken up a full-time job in archaeology (which I almost lost last year due to my drinking problem) and some people would say I've completely flipped my life around.

New to hack forums, and my interest has peaked.

Thanks for taking the time to read.

This giveaway contest is awesome.

Hope all is well.

Cheers! *clanks water bottle

Talk about how your school/work/life has been going. What aspects of it could change and make your life better.

My work life has been going quite well recently, I recently got promoted to a higher position at the company I work for (crypto centered)

However my personal life could be going better. I've gotten myself too into gambling online and it's almost become a problem.

I need to find ways to distract myself from online gambling in order to kick the habit that is forming

Anyways, I thank you for this giveaway opportunity!
