Thread: [Unbannable vps for a qbot or any putty botnet](#)

DLPxx - February 17, 2019, 6:07 pm

title says it all. My friend wants to know since he's setting up a qbot very soon and stuff like [censored] and digital ocean is just horrible

Check sql injection section.

- It's cheap.
- If they find you they wont trace you.
- Nobody will know.
