Thread: [In Need of a Mentor!](#)

Mr. X - February 19, 2019, 5:27 am

It has been a couple of years since I last did E-Whoring and pretty much I am looking for a mentor who can help me via discord or anywhere else that can get me started with this as I have no idea on where to begin or what to do. If you do have the time and would love to help me get started.. then hit me up with a PM or send a message down below, thank you. Much appreciated.

Lyceum - February 19, 2019, 6:59 am

Check the guide in my sig, not much has changed, just some stuff stops working and is replaced etc etc

Thanks a bunch, I will check it out now.

I can't get fake-camera to work for some reason. I am on bluestacks, I am using lynx and it just doesn't show.

What do you mean by it doesn't show?

Make a kik on your phone and test it, it doesn't 'show' anything besides the pics in your gallery, you select one and it says 'camera' on it.

Nobody will ewhore for you.

Try to read some shitty free ebooks at the beginning and you'll learn by yourself after, with experience.
