Thread: [Digital Ocean Account with \\$100 credits](#)

alighaligh - February 19, 2019, 7:02 am

I have a Digital Ocean account with \$100 credit which will expire within 58 days (from today). Don't seem that useful for me, so I'm gonna give it to the first one who reply in this thread. Sorry for my bad english

I'll take it off your hands if its still available

I mean why do you giveaway something that is free ? You can add those \$100 credit on your account without investing.

Yea it's almost no investment to get that, somebody might need it more than me tho.
