Everything I tried seems to be taken is there a list of pruned OG names anywhere, maybe you can pick one for me if you have any ideas?

Deany - February 19, 2019, 7:56 am

Just make it Katie without the numbers

Kosmos - February 19, 2019, 7:57 am

Maybe Katie2202 is available? Old usernames were recently pruned.

You can steal Mute. He was a low quality troll in the forum and made his own forum that failed miserably.
