Hello guys, just joined today.

do you have amazon prime account ?

i used to login with fake account, credit cards and everything, it works back in the day. but it seems now amazon can detect a fake credit cards or something like that, i just wanna claim 1 prime loot pack, thats all.

thanks buddy.

<https://namso-gen.com/>

that site will generate a random cc number [not real at all lol] but it will allow you to sign up for amazon primes 30 day free trial and claim the stuff you want to get before the 30 day period ends

you're welcome

An .edu email can be used to get 6 months of Amazon Prime for free with a valid card.

You can obtain a valid VCC with Privacy.com if you have a bank account.

.edu emails can be found in the marketplace for about \$3.00

Just be sure to cancel auto renewal.
