It would be fair, if there wasn't two other groups for sale for 70% of his asking price :p

630's sold for 3.1k I'm pretty sure. Lani's is still on the market. With the \$250 fees they're \$3,250

and then you still have to pay the \$250 for userbars/gfx then another \$100-\$200 to your middle man so they're all around the same price.

What makes you think 630s sold? He's still the group owner and the thread is still open.

As far as the fees for xferring the group and graphics and middleman, wouldn't those all apply when buying Divineds group as well? So they cancel out lol.

Strange someone paid \$3.1k for something that had a 2.75k BIN haha. Must be a friend of his helping him out or something then

I think that's what it was after fees. Can't speak on it personally since I didn't buy it myself nor did I invest that money, but that's just what I'm assuming.
