Thread: [Job Hunting Full-Stack Web Development / HTML, PHP, JS, Node / PSD to HTML](#)

Enliven - February 21, 2019, 11:09 am

Hi,

I'm Cloud and I'm offering my services as a Full-stack web developer.

I'm looking to do work in the following areas:

- HTML/CSS
- PSD to HTML
- JavaScript & Node.js
- PHP
- WordPress

In the past I have done various sized projects, from single-paged applications to custom WordPress themes.

My portfolio can be accessed [here](#).

Feel free to contact me via PM, Discord (Cloud#0974)

Big vouch for CloudLEL. Hired him for Web Development and he finished the contract in no time with an excellent design! He knows what he's doing and can recommend him! Big vouch++!
