Thread: [Wolf Mascot Logo showcase and steps on how i made this \(NO DRAWING SKILLS NEEDED \)](#)

Motusora - February 21, 2019, 8:15 pm

Steps

Spoiler ([Click to View](#))

I used free stock images then traced it over
even if you don't have a talent in drawing , you can still make logo mascots
but obviously you need to practice your pen tool skills as well ?

and finally add some texts and outlines

SORRIE - February 21, 2019, 8:17 pm

Wow its really cool to see your process and get an insight on how you make those dope ass designs, thank you for sharing this my beautiful friend

you're welcome mate , this is to show other designers that you don't need drawing skills to make logos and mascots (but much better if you can draw haha)

however i usually draw most of my mascots as you can see on some of my threads , i also posted the sketch ?

thanks for the feedback mate ?

keepfly - February 28, 2019, 8:54 pm

thanks for posting , I can't draw for shit.

overdue - February 28, 2019, 11:54 pm

Damn, what an awesome job.

Thank you for giving insight into how to do this ourselves.

Very clean design, and also a cool method. Tracing comes in handy mane, definitely helped me get better at drawing.

its80 - March 3, 2019, 8:16 am

Always killing it with the art work man well done.

Tragedie - March 11, 2019, 12:22 pm

Wow, this is so neat! Great design, well done

ItsEndy - March 21, 2019, 12:03 pm

Text could use some improvement because it looks a bit flat but the mascot in the other hand looks pretty nice, Well done man.

Blekai - March 22, 2019, 5:05 am

Amazing dude, this gives me so many ideas as I don't know how to draw, now I'm able to practice on doing them on my own.

One question tho, how did you do the shadows? as in, how did you decide to place them there, and how did you make them.

Deal - March 22, 2019, 5:11 am

Love the design man. Thanks for sharing this.

Looks clean and generally really nice.

Anima - March 24, 2019, 3:53 am

As a lover of wolves, i absolutely love this! Great work :3

I'm looking for a snake themed logo, how much would you charge for something like that? :)

Bacardi Cola Lime - March 24, 2019, 3:58 am

Really cool logo design as always! It's great of you that you included a mini tutorial. It encourages designers to keep up!

Awesome logo man! I saw one of your other thread where you showed how you make them and I would never of through to trace and slightly
Modify to make it your own!

I just got an iPad Pro 12.9 inch and an Apple Pencil so I'm going to start improving my drawing skills! Thanks for helping me without even directly trying! ?

SIM-4215248 - April 28, 2019, 7:07 am

Incredible. Love the blue and white

icxn - May 7, 2019, 3:00 am

Looks dope bro, really clean, if the edges were a bit more crisp and sharp and the font popped out more and wasn't as flat it would be sick

Traum - May 7, 2019, 8:51 am

Damn, that looks so good!

I tried doing mascots from my head because the poses I wanted weren't on Google images, but they didn't turn out well.

Dseri0us - May 7, 2019, 4:04 pm

Wow, I literally bookmarked this one, it looks lit!

Also a question, my sister is 13yo, and she loves graphics and design, a couple years ago me and my dad bought her a NVIDIA Shield K1 (tablet) because I thought that would be enough for "her age".

What do you think by the dimensions of its own? And also, would you commend any pen or any drawing apps, so she could keep practicing?

The tablet comes with a default app for drawing and I guess she uses Art Flow also, what's your thoughts?

Thank you, and have a nice day bud!

Elara - May 7, 2019, 4:07 pm

Wish I wasn't such an idiot and could understand how to use the pen tool.

Wick. - May 7, 2019, 8:19 pm

This very much reminds me of a football team back in my hometown

Nimmy - May 8, 2019, 1:54 pm

I love the colors you used in this! Also a big fan of the simplicity with subtle detail.

A very cool design you created. Listing out your steps and showcasing how simple you made it look, really makes me feel like creating something of my own. Love the color scheme as it is pretty easy on the eyes. Great job OP, thanks for this.
