? ??? ? ? ? ?

Good game bro... ?

... There is a total of 5 images, but system is counting 17... ?

- I am assuming this is now counting smileys?

\\Edit:

Yea smileys seem to be accounting for the other 12 images.  
Is this intentional???

That is strange.. Maybe don't use 12 smileys ?

Never experienced it before.

From the looks of the MyBB docs, the smilies do explicitly count towards the total image count of the thread.

Quote:The number of smilies that you can use in one post may be limited by your board administrator in the "Maximum Images Per Post" setting.

Less smilies. You'll be just fine.
