Come take a look at our website! we have fully automated bitcoin payments:)

astrot - February 23, 2019, 4:16 pm

more information please.

the payments are daily? weekly or monthly?
its a roguer labs?
the traffic we should buy it from traffic sites? or as?
Why do you sell so cheap a method that generates more than 1000 dollars a month?

one time payment for the text file..

you can use free or paid traffic, youll understand when you read the methods

its a very simple method, some may know, many do not... the method depends on how much work and investment you put into it. If you choose to spend money and actually work on it, you can easily get a ton of bots ?

astrot - February 23, 2019, 6:19 pm

its a roguer labs or similiar? i need vpns or similiar?
Do you have proof of current earnings?
I did not understand the payment. Is it a daily payment? and how do they pay? btc or paypal?
if i use traffic popads, plugrush etc... can i use this trafic? no problem if the trafic is bot?

You better imagine a unique spreading method then. Whenever a spreading method is shared/sold on any forum, that's not as unique as it could be, anymore. Find the best spreading way for YOU.

For example, spreading with websites can be really really cool, so just create Websites, which you think, could return to bots.. you won't be succesfull with following other step-by-step tutorials... I don't mean to bad talk OPs method, but I don't like these "methods which have to be bought" in general.

But I wish you good luck with your sales! :D
