Thread: [\[Free\] Mini Crypt Mod V3xD | SemiFUD](#)

V3xD - February 22, 2019, 2:20 pm

Also undetected from Windows Defender

This crypter has a hilariously small GUI, found it on an old forum and modded it 2/23 within about 10 mins if you want to learn how to mod stubs yourself feel free to PM me to enroll in the Anti-AntiVirus Community we work together to mod stubs and teach each other new modding techniques.

Hi, i cannot send pm. Can you give me instructions how to refud, mod this crypter?

Bartol - March 11, 2019, 7:34 am

C00l

U got alot of crypters mhm

doomhaha333 - March 11, 2019, 10:47 pm

Hi V3xD

Keen on seeing how I can mod the stubs myself, beats having to request a file to be crypted each time the need arises.

Regards

CatbugROAR - March 16, 2019, 11:25 am

This is interesting, id like to get involved but i just got my laptop, and got my account set up lol.

Very nice of you that you re-FUD / re-semiFUD. I don't need it but thanks for your contribution.

regsvr32 C:\Windows\SysWOW64\comdlg32.ocx

This crypter is awesome, only 3/22. I noticed though my crypted file doesn't run on a vanilla win7 with .NET 4.7.2 on it. Anyone know what version is required?
