Thread: [Which you your favorite anime song/OST ?](#)

? Heisenberg ? - February 23, 2019, 7:54 am

Created this thread in the wrong place. So re-creating here.

Probably one of the biggest thing which keeps us glued to these anime's are their beautiful OST.

Which is your one all-time favourite OST?

This is one of my fav :)

Naruto OST - Grief and Sorrow

Looking forward to check your favorite ones =)

Recently my favorite OST is Violet Evergarden's, it is full of emotional music that conveys whats happening in the show beautifully. The OP for the show is also amazing, I recommend you head over to YT and give it a look.

I would also like to mention that this is one of the most beautifully animated animes of 2018 as well.

InterstellarAstronaut - February 24, 2019, 12:33 am

the melancholy of haruhi suzumiya is pretty good

-Rogue - February 24, 2019, 6:48 am

Surprisingly no one has yet mentioned about Kimi No Na wa.

Honestly I believe it consists of the best OSTs of all time. Radwimps had rocked it out with amazing songs like zenzense and yumetarou.

Sir, you just stole my reply, and i love you for that (no homo) <3

For Naruto, watching it as a kid i think there wasn't an OST that i didn't get fired up for, but for the others:

Death Note: L's OST (always knew shit was about to go down when i heard that one)
Bleach: Never Meant To Belong (always gets to my emotional side)
