Thread: [Made Over 1500\\$ Profit This Month With Sports Betting](#)

Gandalf - February 24, 2019, 2:57 am

Hello everyone !

This month was very good for me as I've managed to profit over 1500\$ already with sports betting.
I am mainly betting on soccer with 20-50\$ per ticket maximum
I had some really good wins recently and I am ending this month very positive :)

Good job man! I have thought about getting into this. As a side venture.

Have been betting a lot on sports. Even had my own free prediction Facebook page at one point where I had a 75% hit rate on my live odds signals.

But I'm just so sick of betting on a game to lose it in the last minute. This could really affect my mood.

Congratulations with your winning though.

congrats, as long as you stick to risking the same amount you will be fine just dont start increasing the risk on "definite" winners
