Thread: [Who knows how to code node?](#)

Pyroden - February 24, 2019, 4:21 pm

I have a bot that snipes items on a game. The bot doesn't work anymore because there was a API change.. I need someone to find and change the API's so it will work again add me on disc

Self bots still work, so unless the account is locked/banned it should still work when updating the lib (probably using an older Discord.js lib)
