Thread: [Bustabit Script. I made \\$500 in two weeks.](#)

000 - February 24, 2019, 10:46 pm

I coded this script myself. The method used in this script is modified version of Oscar's Grind (https://en.wikipedia.org/wiki/Oscar%27s_grind). It is highly profitable because there is almost no risk. But beware! I noticed if you run this script long enough the game variables change and you'll lose everything. I recommend going with 3-5 accounts and 10,000 bits in each, for a week or two, not more than that!

I also recommend running this script on VPS so it doesn't stop.

Post here and PM me. I am sending this to only 10 people.

I mean look at this user "0x0x0" reply. He did not PM, too. He could have made easy money with this script but fuck, he was too arrogant to actually read the thread first. :(

I know, right! He thinks I owe him a PM for his reply. I could have sold this for like \$100, easy money, like everyone else but no one appreciates the fact that I am giving it away for free. :(
