RESURGENCE TRADING - Margin Masters

Make guaranteed profit by leverage trading (Cross Leverage to x25/x100). It's easy, just BUY | LEVERAGE | PROFIT

Leverage Trading is a form of trading which happens to be my favorite. Whether the market is going up or down, there is a lot of money to be made! via Margin/Leverage trading.
Margin/Leverage trading - Know how to beat the bear market and profit regardless of the condition BTC is in.

RESURGENCE TRADING: Margin Masters - IMPORTANT ANNOUNCEMENT!!

As an extension to Resurgence Trading, we are now launching Resurgence Trading - Margin Masters which is something completely new for the HF community.
If you are interested in conventional trading, I suggest you check my [\(Other thread\)](#) which provides normal calls/signals based on TA & FA (Technical & Fundamental analysis)

As for Resurgence Trading - Margin Masters, it's guaranteed huge profits every single time which ranges from 30-100% for every single trade.
You are guaranteed profits because you are Margin/Leverage trading and unlike conventional trading, the profit % and ROI is quite high depending on the portion you open your trade with.
(For pricing structure & details - Check below)

RESURGENCE TRADING - What do we aim to provide?

Over at Resurgence Trading - not only are we aiming to provide Top-Notch signals, but we are also aiming to create a fledging crypto-community and bringing you unique & new exciting services. Where we make traders out of you all, all things can 'look hard' when you aren't familiar with it. We will teach you the basics & guide you into making actual \$\$\$ by trading or in this case pumping cryptocurrencies.

We took this initiative because firstly, cryptocurrencies are still in its infancy stage with lots of room to grow.
(Which means lots of money for us)

And No!! We are not promising you Moons & Lambos but

Everyone wants to make money...

So, what we do promise you is a greater financial freedom as long as you dedicate yourself into following our signals and grow alongside us.

Nobody becomes a master from day one, it's a journey and no one says that you have to be alone in that journey.

"So, let us guide you into making an actual profit."

RESURGENCE TRADING: Margin Masters - What can you expect from it?

Unlike most of the 'Methods & E-Books' being sold here, Resurgence Trading is bringing you something quite unique. Never seen before in the forums.

Of course, we are not promising you \$500/day or \$10,000/month. It's not that easy and even if it was, no one would share it.

But what you can expect from us? Say you invest \$200 for a margin call, your profits will range from \$60-200 every single trade on top of your principal investment (30-100%)

"Expect Earnings like these!!!"

RESURGENCE TRADING: Margin Masters - FAQ

Spoiler [\(Click to View\)](#)

Q: Is this illegal, unethical or blackhat?

A: No! This is 100% legal in the Crypto-world & Trading
 (This is trading at the basic level with added leverage).

Q: Does this work worldwide?

A: No sir, it doesn't. Location which are banned are: USA, Iran, Cuba, Syria, Crimea, Sudan, North Korea.

Q: I'm under 18, can I still profit from this guide?

A: Most trade exchanges need to verify you and your identity for higher withdrawal limit, so even if you are under 18 or 21 - you can earn regardless of your age.

However [+18] is preferred or you can do so with permission from your parents.

Q: Do I need to invest money?

A: I'd recommend at least \$200 for the membership and \$100 minimum. Bigger your investment & capital - the bigger your returns.

Q: How much capital, do I recommend?

A: I'd recommend at least \$300-500 for the membership and the remaining for margin calls.

Q: How long until I see earnings?

A: Immediately, once the trade finishes (So, 24-48 hours).

Q: Do you offer refunds if I don't earn any money?

A: Since we are selling our services, we can't do that - however, rest assured. You will 'make' money.

This is not some 'E-Book' or fancy '\$10,000 method' - this is buying an advantage/knowledge like cheats in videogames.

Q: How can I get paid?

A: Via BTC, since you will have to buy-in using Bitcoin.

Q: How much can I make in my first day/week/month?

A: That depends on you and how many calls you follow. In Jan, 2019 - we have followed calls which collectively netted over 750%+ in 25+ days.

Secondly, how much you invest - decides the returns per trade. (For example: 50% of \$100 is \$50 vs \$500 of \$1000 in one single trade)

Q: Do I need any special skills, knowledge or anything like that?

A: You do not need any. Just COPY & FOLLOW - What you don't understand, you ask us and we guide you. As the motto of RT (Resurgence Trading) - we aim to educate the masses on how to trade.

So, rest assured - I will mentor/teach you individual to individual basis.

Q: Maximum investment per call?

A: I'd say somewhere between \$1000-10000 per call.

Q: How long does it take to setup the buy signals?

A: 2-3 minutes to set up the SL & buy the signal, set up the sell signals notifications and that's it.

RESURGENCE TRADING: Margin Masters - Vouch Copies?

First 5 Spots for \$200 (50% Discount) - The reason normal vouch copies can't be provided is because of the manner of the service.

As for the HF community, Results for the first 10 days of March are out - We are off to a banger.
(Learn how to trade like this and grow your capital)

Spoiler [\(Click to View\)](#)

For reference with a balance of 0.50 BTC which is roughly \$1,935.

And risking 8% of your portfolio for every single position, you'd have spent a total of 0.24 for all your positions.

And the profit would be 0.248 which is roughly \$958.

That is a portfolio growth of 49.6% in just 10 days and with ROI/ROE of 600%+.

So, come now & start making money ?

30 days of April comes to an end - with over 4546.27% (x20) & 14635.1% (Cross) in total cumulative profit if we followed all calls.

This has been an outstanding month for Leverage/Margin calls as I had mentioned in RT Signals results

Due to the massive PA seen since BTC smashed through \$5k+

The month has been the best by far according to my personal Quality over Quantity calls.

Record-Breaking profit for Margin Masters

We are hugely in profits for this year of 2019 with over +3500% in profit and we have barely completed our fourth month
