A: Nope.

Just bought it and like OP says you'll probably have small revenue majority of the days but you'll also win huge sums some days as well.

You need to be online during evening for US / after midnight for EU.

You don't need to talk to anyone.

Both iOS and Android supported.

Like stated in the first post, I won't reply to any "is this" questions. It might be, it might not be.

No, the only payout option is PayPal.

I've decided to lower the price of the method due to the fact you can't always execute it to it's full extent.

text.op - March 14, 2019, 1:59 am

Hi, I would like to buy your ebook. Could I please pay you via Paypal (payment for friends)?

ramsfort - March 14, 2019, 3:02 am

Any more details on this? I'm in the EU also. Cheers
