Thread: [\[FREE\] Root Crypter | Mod V3xD \(Cloner/Injection/Binder/EOF\)](#)

V3xD - February 27, 2019, 12:55 am

3/23- Also undetected from Windows Defender
Updated on 3-5-2019

Root Crypter - Modded by V3xD

Pack your crypted files with UPX to keep the crypter undetected for longer!
Also never use VirusTotal. This tool is for educational purposes only, fuck the police.

It's right there, just use a search engine ?

Synpaste - February 27, 2019, 11:37 am

Could someone Explain how to Decrypt it?

Edit:there is no post talking about the Scorio Decrypter... if so could yall Link it to me?

V3xD - February 27, 2019, 11:52 am

I found it with some searching, heres a hint.

Synpaste - February 27, 2019, 12:23 pm

Vouch! smart password too.

Codex222 - February 27, 2019, 1:20 pm

Vouch! Took me half hour until I found the Scorio but yes! works perfectly now remember never scan it on virustotal!

^ This user has leeched all my crypters and posted them on a russian forum without credits causing thousands of autistic russians to ruin it. If he asks you for anything do not trust!

pqisthebest - February 28, 2019, 6:16 pm

I cant pm i dont have more than 25 posts can you private me the password or send me how to decrypt it?

Poserver.exe - February 28, 2019, 8:11 pm

I'd love to test crypter I'll pm me you if could help with password and report back on how it worked for me.

Lovely GUI btw :D

The decryptor doesn't work, I even tried converting from hexadecimal/ASCII/unicode/etc. to no avail.
Some help would be greatly appreciated!

Poserver.exe - February 28, 2019, 8:58 pm

When was it updated because its fully detected?

15/15 scanners reported malware.

Theres no way lol i just tested it, still undetected

lordxenaroth - March 1, 2019, 1:51 pm

Doesn't work for me. It just gives me an error.

Great tool

it Works perfect

AngelCry - March 11, 2019, 3:15 am

Can i have archhive's password by pm?

Hopsin - March 11, 2019, 6:35 am

I don't need it but thanks for your contribution. Have a nice day!

Pipsayyy - March 20, 2019, 5:46 pm

Ive got the programme but how do i go about setting everything up?

Subtoxic - March 21, 2019, 2:40 pm

How'd you get the launcher to work? For me it requires additional windows features and I can't move from that point. Tried compatibility mode no such luck.

flamery - March 21, 2019, 3:29 pm

Thanks so much!! Qasar Rat shows just 3/22 detections.

KyTux - April 8, 2019, 11:10 pm

Question bud whats the password?

SQL-INJECTION - April 8, 2019, 11:42 pm

@V3xd sir kindly provide me the password.when i am trying to extract the rar file its asking to enter password..thank you in advance...

agimoney - April 9, 2019, 4:03 am

pls send me the pwd, i need to make use of your crpyter.....

naxster - April 9, 2019, 8:16 am

This actually looks great! Nice release :)

However I need a Crypter that has an option to install it to the PC so when you reboot the laptop, the RAT also launches.

Does this Crypter have that feature? :)

Vazco - April 9, 2019, 8:48 am

Thanks for the share ! Hopping it will work

Most RATs have auto startup built into the rat itself, but no this crypter does not have its own autostart. You could techincally make a batch file that is binded/ran that would do it though.

I hope you didn't scan on virustotal...

jascorp - May 9, 2019, 12:35 pm

(May 8, 2019 04:15 PM)Cooooool Wrote: [\[CITE\]](#) I hope you didn't scan on virustotal...Yeah, because of some people downloaded it then uploads on VT many times, that makes the crypter being more detected on many AV.

Using Vmware or RDP when using a crypter is safe. Nothing need to scan it.

medusamaster - May 11, 2019, 11:04 am

no i dont, i using nodistribute.com

Fr33d0m - May 12, 2019, 10:20 pm

Wow this is great for a free crypting program. Great job! Hope to hear more from you! ?

Cooooool - May 14, 2019, 4:42 pm

(May 11, 2019 11:04 AM)medusamaster Wrote: [\[CITE\]](#) no i dont, i using nodistribute.com wut. Dude... NoDistribute, believe it or not, distributes. It says it right there in their privacy policy. I don't get how people have not seen the hundreds of threads that list free and paid scantime/runtime scanners that don't distribute. Honestly this just baffles me.
