Thread: [Looking for private crypter? or good crypter with binding](#)

Mason™ - February 27, 2019, 10:57 am

Looking for a solid native crypter.

Not looking for lifetime membership. Gonna test it out and if I like it I'll buy membership, Has to bind. Could get a personal private crypt from someone if they can bind

Easy task just don't have to programs
thanks hf!
